

LORON

Excellence in Action

APPLIANCE CLAMP

The **Loron** Appliance clamp is designed to efficiently handle a variety of loads such as refrigerators, washers, dryers, microwaves, trash compactors and more.

FEATURES:

- Articulated arm design for even clamp force distribution.
- Zero camber and tall platen support plate.
- Clamp cylinders are centered on platen support plate for even top to bottom force distribution.
- Full-length nylon bushings do not require lubrication, are field replaceable and reversible for long life.
- External side shifter allows lateral movement in all positions and eliminates clamp force variations when shifting to the end of stroke.
- Thin profile arms allow knifing between loads.
- Rubber covered contact pads are 4 way reversible for extended wear.
- One year warranty
