

# LORON

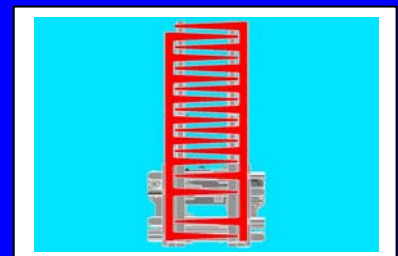

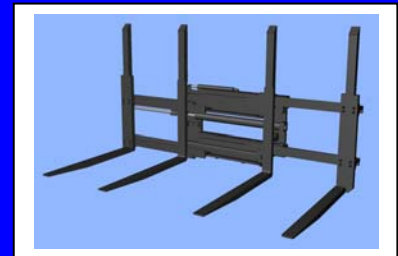

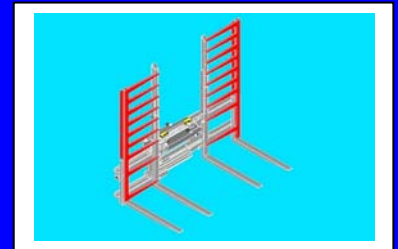

*Excellence in Action*

## SINGLE DOUBLE PALLET HANDLER **View-2000**

- Rugged all-welded steel frame minimizes deflection and assures long life.
- Hi visibility through frame for safer handling.
- Single cylinder design provides higher speed and equal arm movement in single and double positions (no control valve needed).
- Full-length nylon bushings require no lubrication, and are field replaceable and reversible for long life.
- External sideshifter allows lateral movement in all positions.
- Adapts to both class II and class III carriages (Self Adj).
- One year warranty.

The LORON single double pallet handler is a versatile attachment that allows efficient handling of single or double wide loads
